

Cyber Security as business enabler and growth engine

The seminar will cover key cyber security topics that CISOs around the world face today, which most likely will shape the landscape of cyber security in the next few years. Topics include 'Cyber as a Business Growth Engine Enabling Mobile Banking', 'SOAR to Move Toward more Automated Processes and Repetitive Cyber Operations', 'Privacy Regulations with the Uprising GDPR in Europe', and numerous CISO executive training programs.

The seminar is for Cyber Security Executives (CIO, CISO, etc.) and CEOs.
